## Report Eve center for cases of abuse and killings, beatings on the Turkish border

Despite the tragic situation of this long war, which has happened to the people in Syria increased to even worse crimes that the Turkish Syrian border lies the beating and murder, rape and blackmail situation and we as a center of Eve to document the crimes of violence against women during the war in Syria have documented cases by hospitals that have received dozens of cases including Avreen and Qanbar Blan hospital, there are women who have been raped and exploited by the Turkish army and smugglers in front of the eyes of their children.

There blackmail by the Turkish soldier and smuggler, who arrived to the point where the cost of smuggling a person (600000) SP which approximately (1000) \$ dollars and Afrin safe area tends to thousands of displaced people, but because of the blockade imposed on us from all sides can not displaced transit to seamlessly and can not crossing the Turkish border to being killed, beaten, physical, material and extortion. We call on all international organizations to stand up to this dire humanitarian situation and decide on a solution eases the killings and abuse. These are some situations in which we were able to be accessed and documented and thank you for .....listening
